EXECUTIVE SUMMARY

Passionate Informatics Engineering student with a focus on technology, programming, and problem solving. Currently pursuing a Bachelor of Informatics Engineering, specializing in software development and user interface. Seek practical experience through internships or independent study to apply classroom learning and enhance technical skills. Open to network and connect with professionals in the tech industry.

EDUCATION

University of Lampung – Bandar Lampung, Indonesia   Expected graduate Oct 2025
Undergraduate in Informatics Engineering
Cumulative GPA: 3.91/4.00
Relevant Coursework: Algorithms, Data Structures, & Database.

TRAINING & CERTIFICATION

- **Learn to Build Web Apps with React, Dicoding Indonesia**   July 20, 2022
  Learn about the React ecosystem, basic React concepts, React UI components, and stateful components.

- **Learn Basic JavaScript Programming, Dicoding Indonesia**   July 6, 2022
  Learn basic logic in JavaScript, how to manage data with objects, arrays and maps, the concept of object-oriented programming in JavaScript, error-handling, asynchronous processing, and JavaScript testing.

PROJECTS

Alvinreihans – Personal Website
Designed and developed using React, by implementing react-routing and implementing dark-mode preferences stored in local storage.

Personal Notes
A simple personal note. Uses local storage to store notes, so it can only display notes saved by the browser used. Made using React JS.

SMAN 1 Metro Yearbook
Web version of SMAN 1 Metro yearbook. Developed using React.

SKILLS

Language: English (Proficient) & Indonesian (Native)
Others: C++, UI/UX Design, SQL, teamwork, creativity, time management, logic and troubleshooting,
